

Minnesota Philharmonic Orchestra COVID-19 Policies

Section 1: Vaccination

- All playing members of the orchestra are **required** to be fully vaccinated for COVID-19, including a 14-day waiting period, unless they are unable to get the vaccine for medical reasons.
- Should an additional or booster shot become recommended, members agree to get that additional shot in a timely manner as they are able.

Section 2: General Principles

- Members are encouraged to wear masks or other PPE, but are not required to do so.
- If a member becomes aware that they have been exposed to COVID-19, we ask that they refrain from attending rehearsals until they receive a negative test result.
- Members should not attend rehearsal if they feel sick, especially if they are experiencing symptoms of COVID-19.

These policies are subject to change according to guidelines set by local, state, and federal health agencies, or to match requirements set by any of the rehearsal or performance spaces used by the MPO.
